

I have subscribed to both the national and state no-call lists since their inception. As a busy professional, I really appreciate NOT receiving telemarketing calls at my home.

Having the no call lists makes my life better because I no longer have to screen calls and accidentally miss pertinent calls from friends and family. And I don't have to deal with the stress created by getting off the phone with a telemarketer at the end of my busy day.

I do not need the extra information or marketing that businesses claim they provide via telemarketing. If I need a service, I can easily find enough information about businesses. Please leave the Wisconsin no-call list as it is.
